ORIS 1976
Yearbook of the School of Dentistry
Case Western Reserve University
Cleveland, Ohio

D E D I C A T I O N

The only prerequisite for a yearbook dedication is to have someone to dedicate the book to. In our case the decision was an easy one. Dr. David B. Scott is the perfect applicant to fill the bill. He has had the honor of being the Thomas J. Hill Distinguished Professor of Oral Biology and Dean of our dental school from 1968-1975. Dr. Scott holds an A.B. from Brown University (1939), a D.D.S. from the University of Maryland (1943), and a M.S. from the University of Rochester (1944). He is also a fellow of The American College of Dentists, The International College of Dentists, A.A.A.S., and The Academy of Forensic Sciences. As the graduating class of 1976, we would like to wish Dr. Scott the best of everything in his endeavors in Washington.

RESEARCH

7/10/75

Message to the students:

For the last seven years, I have in my message said farewell to our graduating students and wished them the best of luck in their endeavors. I have tried to give them reason to be proud of their school, have confidence in their preparation, keep up to date through continuing education programs, and participate in the organizational affairs of the profession. For theirs is the future, and they must help shape it. I extend these same thoughts to you again this year, but I do it with a certain feeling of sadness and nostalgia. As you know, I am leaving the University to assume the Directorship of the National Institute of Dental Research. I shall miss my contacts with all of the people whom I have gotten to know so well, and who have been so helpful in making a difficult job workable and pleasant. I shall treasure my relationships with the students, for they are the reason we all give of ourselves in education, and they are the source of the satisfaction we derive. Again,—success, happiness, and a bright professional future—may they all be yours.

David B. Scott

July 18, 1972

Mr. Prospective Dental Student
4499 Any Street
Your Town, U.S.A.

Dear Mr. Student:

This is to acknowledge the receipt of your first semester
tuition payment of \$1,145.

Examination of your folder indicates that we have received
all of your transcripts and required materials and, there-
fore, your acceptance to the class of 1976 is confirmed.

Sincerely,

A handwritten signature in cursive script, reading "David S. Gray", is positioned below the word "Sincerely,".

David S. Gray

FACULTY

Dr. Thomas J. DeMarco, Acting Dean

Dr. Thomas J. DeMarco was appointed Acting Dean of the School of Dentistry, Case Western Reserve University, effective January 1, 1976. Dr. DeMarco joined the Full-time Faculty of CWRU in 1968 and is presently the youngest person serving as Dean in the country. He is a University of Pittsburgh graduate (B.S. '62—D.M.D. '65) who earned a Ph.D. in Pharmacology and a Certificate in Periodontics at the University of Boston Graduate School.

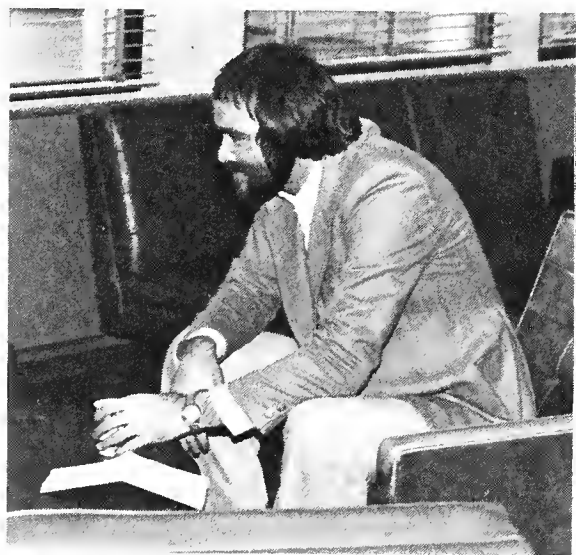

Dr. DeMarco is a Professor of Pharmacology and Periodontics at the Dental school and is equally at ease discussing drug therapy, periodontics, or clinically related subjects. As a multi-talented individual, he is an author, lecturer, researcher, inventor, practicing periodontist, and administrator.

Aside from his professional activities, he has made a hobby of investments and is presently acquiring a Certificate in Financial Planning.

HARDNESS

COLOR

PRICE

THERE'S AN **ADERER** *Casting Gold*
FOR EVERY PURPOSE!

The Aderer line of casting golds is very comprehensive. In hardness they range from very soft to very hard (Brinnell 65-270) . . . in color, from light yellow to deep rich gold and the platinum colors as well. For ceramics, Aderer provides Ceramco—the oldest and best-known name in porcelain baked on gold crown and bridgework. For conventional inlays, crowns and bridges Aderer provides alloys in types I through IV—some with gold content low enough to eliminate the need for chrome and nickel substitutes; and there are alloys at the other end of the scale with high gold and platinum contents. No Aderer casting gold contains Beryllium or other highly toxic substances.

Send for your complimentary copy of Aderer Booklet 101; it not only lists all of the popular Aderer casting golds, solders and wires, but important information on Dental Gold Alloys and their use.
